Isaac Newton

Scholium Generale (1726)

The most beautiful system of the sun, planets, and comets, could only proceed from the counsel and dominion of an intelligent and powerful Being.

Riddle

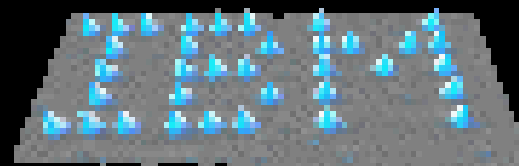

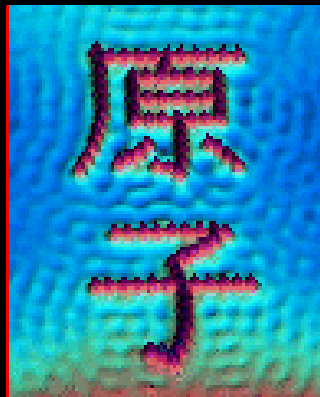

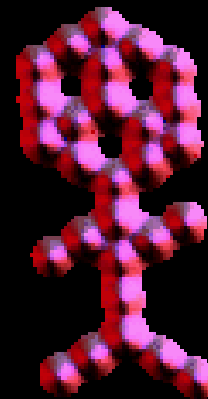

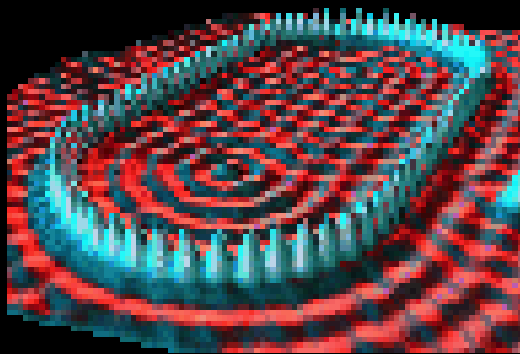

Let's suppose we were all born in this room

- Live together
- No windows or doors
- No contact with the outside
- All you have ever known

Is there any way that we could know that something exists outside the house?

Relativity & Omniscience

If modern science tells us that light can be “outside of time” then we are not as surprised that God may be “outside of time.”

Albert Einstein (1954)

Science without religion is lame.
Religion without science is blind.
